## Personal Language Training

As bespoke as you are.

Working your own way, at your own pace is the special approach you're assured if you choose to learn a language through personal language training. Whether you're starting out from scratch, or regaining former skills, you can enjoy the flexibility and quality of our wrap-around prestige programmes.

---

**"The great thing is the intense nature of 1 to 1 tuition! Being able to stop and ask to return to something without feeling I'm holding everyone up!"**

---

Because sometimes life makes it impossible to attend regular group sessions; sometimes you need to fast track to the next level double speed; and sometimes you just need to quietly build confidence. You may even have tried going it alone, investing in books, cds, downloads and apps, only to become disheartened at your progress.

With a qualified personal language trainer you're much more likely to achieve the results you desire.

---

**Q. What changes could we make to improve our service to you?**  
**"I think it's excellent already!"**

---

Working to your own goals you can depend upon our training experience to ensure you get the best out of your language session and that you stay the course to achieve the level of fluency and skills you desire.

## Trying Out Personal Training

If you'd like to find out if Personal Language Training is for you why not book a free consultation, initial assessment, advice and guidance? Call 01483 768500 or email [info@fluentintuition.co.uk](mailto:info@fluentintuition.co.uk)

### Cost: Free, no obligation

Initially we like to meet up with you in person at your home or workplace, or if you prefer at our Woking centre. During an informal chat with a language specialist you can discuss and assess your training needs: what you want to achieve, when and how you want to achieve it. The session is totally free.

After the consultation we will provide you with an Outline Training Plan detailing initial assessment, scheduling and estimate of costs.

When you begin your training you will receive a Personalised Outline Training Plan including:

- ✿ Initial assessment outcomes: your current level of knowledge and skills and learner profile
- ✿ Course aims and intended learner outcomes: your goals, what you want to achieve
- ✿ Course scheduling: the practicalities: when, where, how often
- ✿ Review and progress report dates: monitoring and feedback on your progress
- ✿ Charges: a fixed calculation of fees depending upon your payment preferences

We will be supporting your learning at every step of the journey and then at the end of each plan, we will review, assess and evaluate your progress towards your intended outcomes together.
